**ART UNIT 2173**

Art Unit: 2173

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Brown on 6 January 2005.

3. The application has been amended as follows:

In The Claims:

Independent claim 15 has been re-written as follows:

15. A system for providing a computer application, the system comprising:  
means for providing a graphical user interface associated with the computer application, the graphical user interface comprising a first portion for [providing] displaying the operations of standard application services of an active computer application and a second portion for [providing] displaying dedicated help services based on the current operations of the standard application services provided by the computer application and displayed in the first portion of the graphical user interface;  
means for determining a user interaction via the first portion of the graphical user interface;  
means for providing, based on the user interaction, a first standard application service associated with the computer application for display in the first portion of the graphical user interface; and

Art Unit: 2173

means for [providing] displaying, based on the first standard application service [provided] displayed in the first portion of the graphical user interface, dedicated help services in the second portion of the graphical user interface,

wherein the dedicated help services are displayed continually in the second portion while the computer application is active; and

wherein the second portion is a dedicated portion of the entire GUI screen real estate, whereby the first portion and the second portion do not overlap on the GUI screen.

The above Examiner's amendment is made to avoid rejection based upon the relevant prior art of record. In the previous office action, mailed 10 September 2004, the Examiner inadvertently failed to indicate claims 15 – 17, which were in fact comparable to other claims to which a rejection did apply.
